The spike in the coffee drink's popularity is credited to Korean actor Jung Il-woo, who consumed the drink during a mukbang in Macau on a television program called "Stars' Top Recipe at Fun-Staurant". The viral instant coffee phenomenon named Dalgona Coffee hit in 2020 just as the coronavirus pandemic began to spread worldwide. TikTok user @imhannahcho was one of the first to famously film her attempt at recreating the drink Jung consumed on the show. Her original post has been liked more than 2,000,000 times, and the [#dalgonacoffeechallenge](#) hashtag on TikTok has more than 17,000,000 views. This challenge was perfect for millions of people trapped at home during early COVID lockdown.

Deok-im

According to historical records, Deok-im entered the royal palace in 1762 as a 10-year-old girl and was named as a gungnyeo, or a court lady because of her father's relationship with the Pungsan Hong clan - the clan of King Jeongjo's mother, Lady Hyekyeong, also known as Queen Heongyeong. It is said that the queen looked after Deok-im as if she was her foster daughter, therefore, Crown Prince Yi and young Deok-im would've been familiar with each other since their teenage years.

Japan's Occupation of Korea & 손기정

Japan's occupation of Korea and its control over Korea's domestic affairs and lands began on the 23 of February 1904 when Korea was forced to sign the Korea-Japan Protocol. In September of that year, Japan took military control over Korea, declaring its death penalty for any Korean resisting on any of the military highways or communication lines.

This eventually led to a restriction of many freedoms for Koreans. Citizens were banned from any protests or organizations, and news media. Out of major Korean figures like Kim Il-sung, and the creation of schools and society that Korean citizens to speak and call themselves subjects which was an effort to Korean identity. This led to a protest in 1920 that Korean's should adopt Japanese names - 84% of families did so by the next year.

While Son protested these shows of Japan's power by attempting to hide the Japanese flag on his uniform while on the podium, he also did so by refusing to sign autographs of his name - instead, he did so in Korean: 손기정.

speaking activity

In February, a month after the server reopened, activities such as the Speaking Activity were resumed. Such activities had been put on pause to give mentors time to prepare material and availability for the sessions.

The Speaking Activity is an activity that focuses on improving one's speaking skills through conversation. A topic is decided on by mentors and questions are sent out beforehand for members to prepare themselves. They are also given a chance to write down any particular vocab they plan to use which others might not know, so that everyone present can follow along. During the session, the mentor will randomly choose people to ask questions, listen to their responses, ask relevant follow-up questions and give appropriate feedback on their pronunciation, flow, choice of words, and the answer itself.

The second activity, which was the first fun activity, was to choose one or multiple Hobi's songs and create a mood board for them. Members could include any pictures, lyrics or anything they wanted in their mood boards.

The second fun activity was to post birthday wishes for Hobi on any social media platform.

Rachel (레이첼)

Our final learning activity was to practice listening skills. There was a compiled playlist from Jack in the Box creation and behind the scenes. Members needed to watch one of the videos and find a minimum of 5 words then fill out a form with them.

Nae's valentine Event

The second Valentine's event on the server was held by Nae. She created a command based on her favourite song, which members needed to guess using the hints she gave. Once they were able to correctly guess the song, they received a role which allowed them to collect a free item from the shop.

nae is dani's twin Yesterday at 8:14 PM
Hello @everyone!

It is currently Valentine's Day (and I didn't even realise because I get zero play). As such, I have prepared a mini event for you all!

I have created a FREE item in the shop that, when bought, gives you access to a one-time command that gives 7777 (yep, you read that correctly). HOWEVER, to buy that item, you will need to have a role. Now, this role must be obtained by running a command. A command which you will have to figure out.

Because it is my event, I have made the command something related to me. It is a favourite song of mine! I'll give you three hints about it:

1. The song is not sung in English.
2. Since it is Valentine's Day, the song has something to do with love and relationships.
3. The title has more than one word in it.

If you can guess which song it is, place a dot before it (as seen in most commands we have here) and make sure there are no spaces between the words. For example, .springday.

All your guesses must be made in #naes-mini-valentine-event. That is also where you should run the command if you manage to be successful, your message will disappear and you will be awarded the role you need to purchase the item in the shop. Buy the item from the shop in that channel as well.

This event will run for 24 hours (so it won't be Valentine's Day when it ends but that's alright). In the final hour, should there still be remaining stock of the item, I will give a final hint which should make it easier to guess which song it is.

SEVEN lucky people will be able to get this item. If you manage to be one, please do **NOT** purchase more than one of the item. If you do, you will be disqualified and your hearts will be removed.

If you have any questions, feel free to ask in #serverquestions-질문.

Good luck! Happy Valentine's Day! (edited)

This item gave them access to a command which they could use to collect a one-time amount of 7,777 hearts. Only 7 slots were available and so it was a race once the song had been guessed. Overall, it was a fun event and Nae hopes to host more like these in the future.

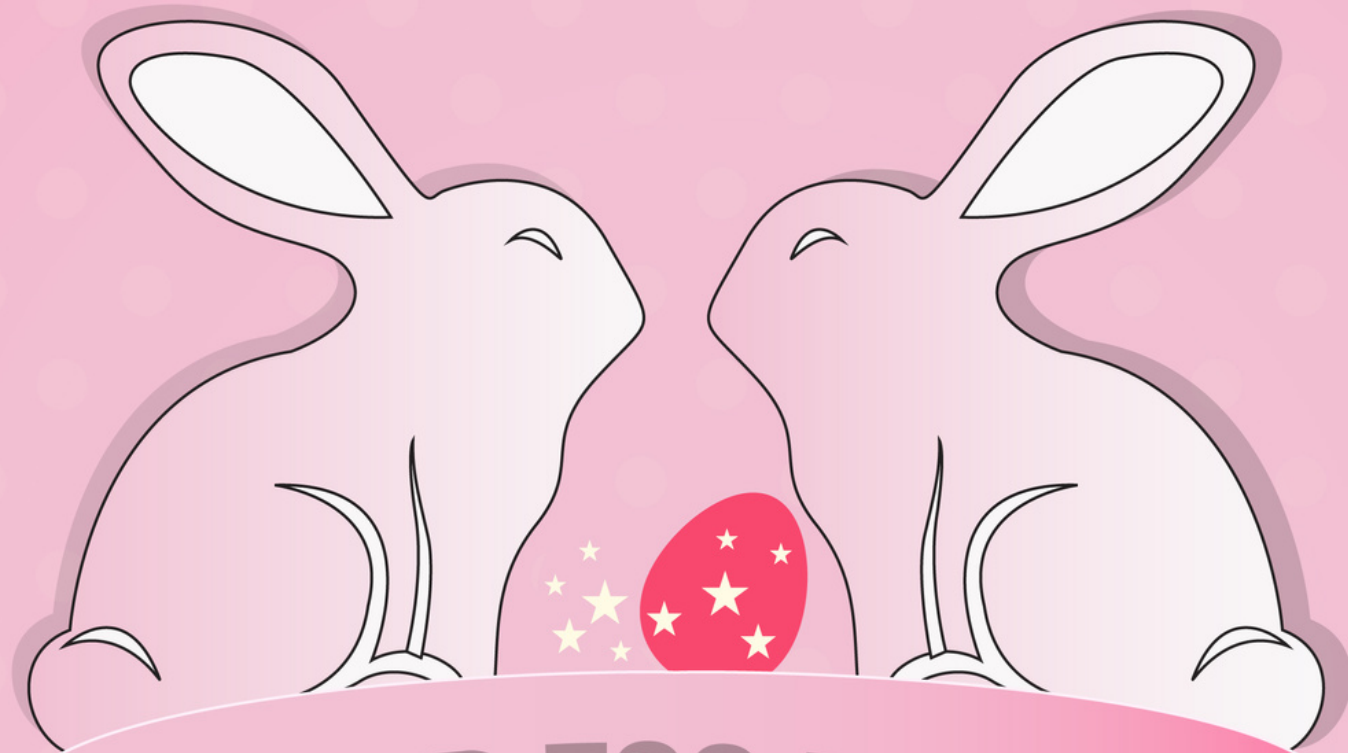

Happy Valentine's everyone!

EASTER EGG EVENT

February saw Nae hosting a second round of the Easter Egg hunt. This time around, the difficulty level was higher. Participants were given an incomplete url which they needed to keep handy. Hidden in messages sent by Nae around the server were letter combinations which would serve as the letters needed to complete the link. Once letters were found, they were to be added to the url and the url then sent in a browser. Should the participant be successful, the url would lead to an image with a lyric from a random Korean song along with the code they needed. The code was then to be sent in the #bot-spam channel where the participant would be awarded the @I found the Easter Egg! role and would be given access to a command which they could use to earn hearts daily. To make it a little more challenging, Nae also put fake combinations in some messages which, when added to the url, would lead to a page that didn't exist. Additionally, participants were given a bonus of 550 hearts if they were able to find the codes for all songs. A total of 5 songs were used this round.

"I know that I can't be a rockstar."

~ Tinnitus(Wanna be a rock), TXT

Code: ikticbar

"My boys spittin' facts they locked and loaded."

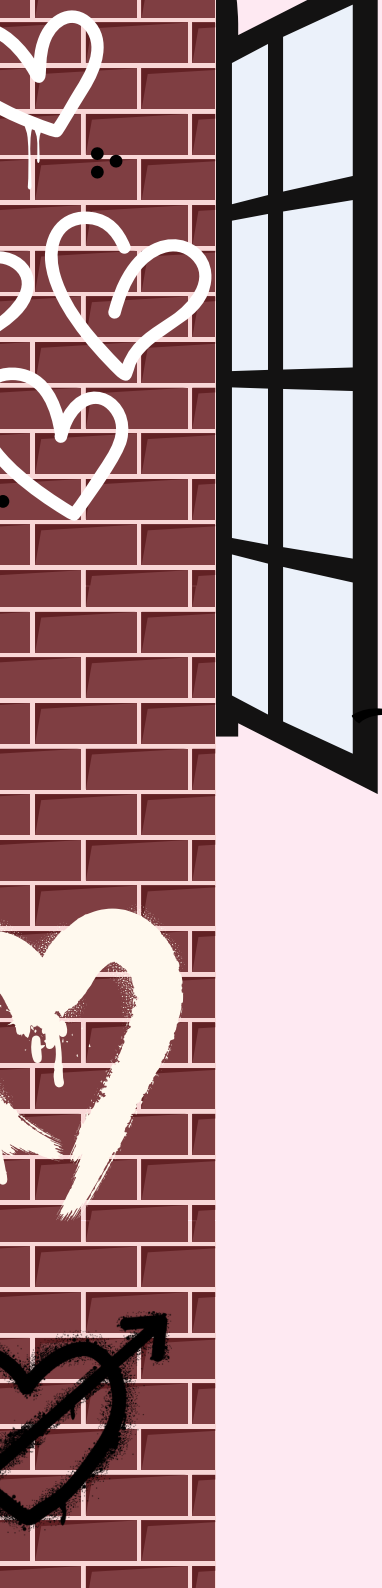

~ 3RACHA, 3RACHA

Code: mbsftlal

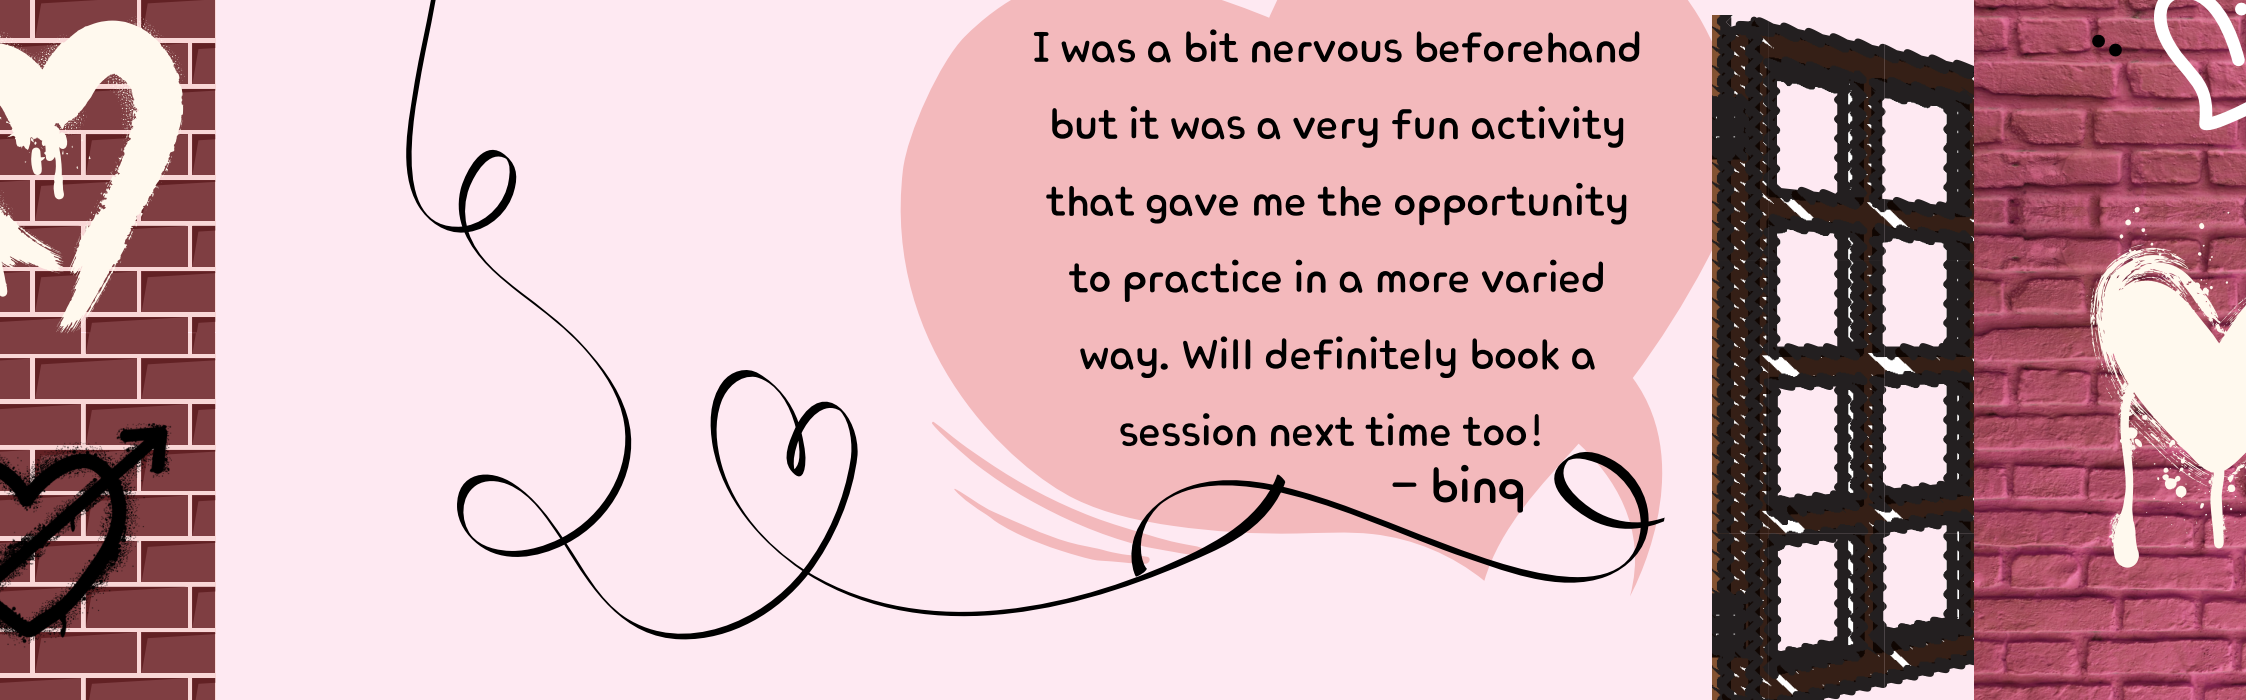

Chat & Speaking

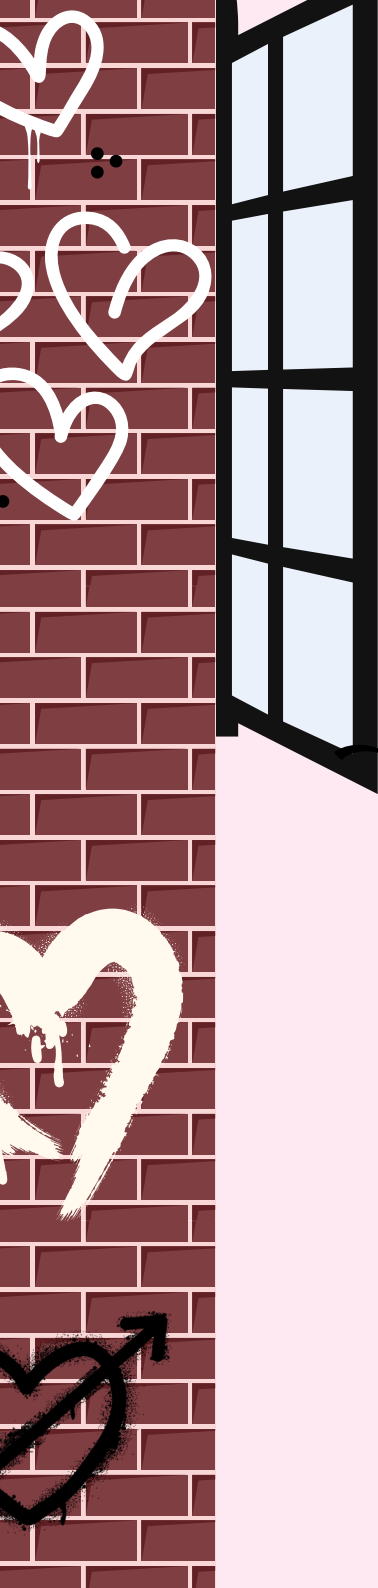

I was really nervous because I did not know what to expect. It was also kind of hard because I didn't know a lot of words but it was not as bad as I had anticipated. – Anon

I was a bit nervous beforehand but it was a very fun activity that gave me the opportunity to practice in a more varied way. Will definitely book a session next time too!
– binq

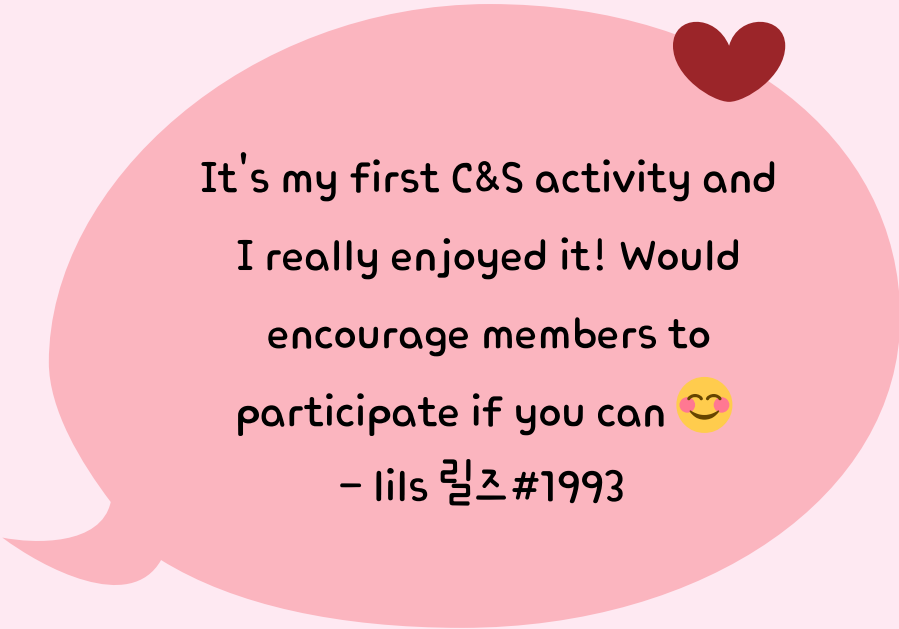

The C&S activity is very helpful got me since I get to have proper review of my skills. It also motivates me to keep upskilling my Korean skills and learning new things and improving myself. Even the manner it is conducted in is very convenient. The passages are also chosen well with many vocabulary to learn from. – Washah K #6441

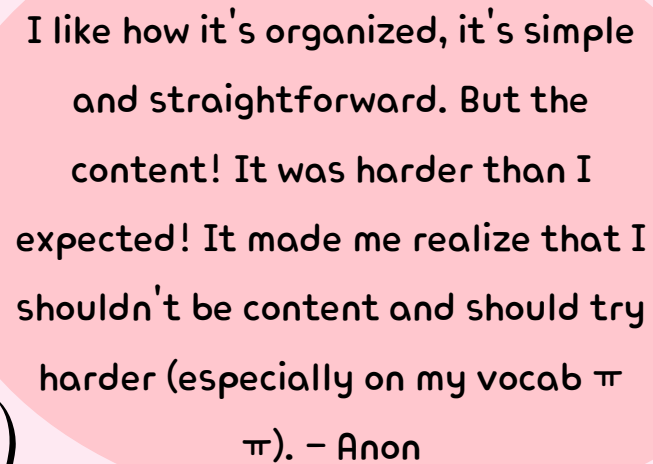

The C&S activity is a great way to practice your Korean pronunciation and allows you to check your progress over time. It does feel a little daunting at first, but also gives you a sense of achievement when you understand more than you were expecting. I'd certainly recommend trying it out.

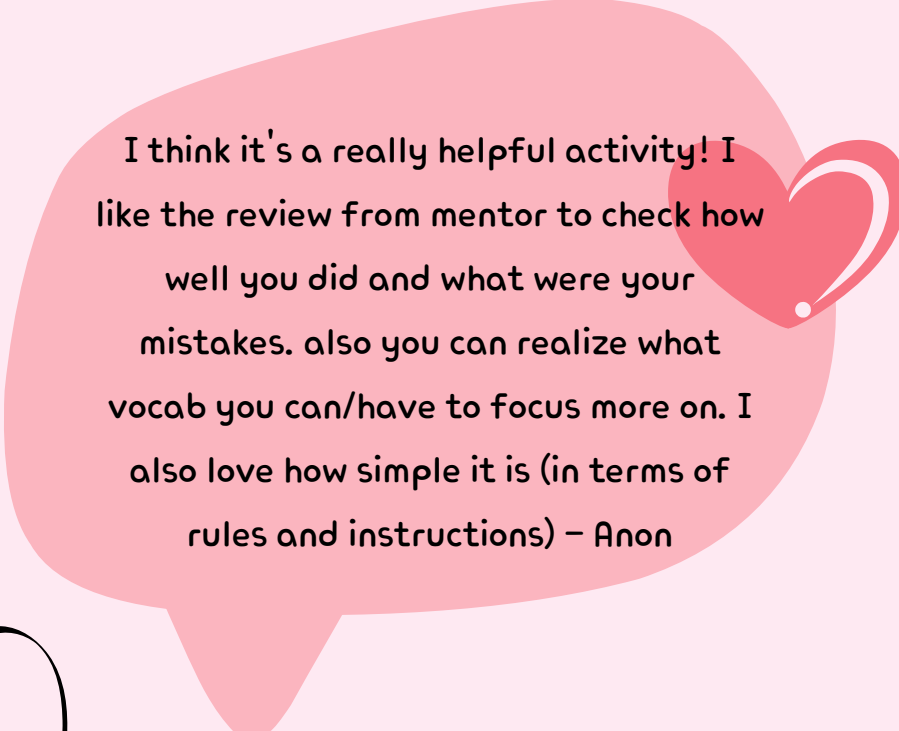

– Anon

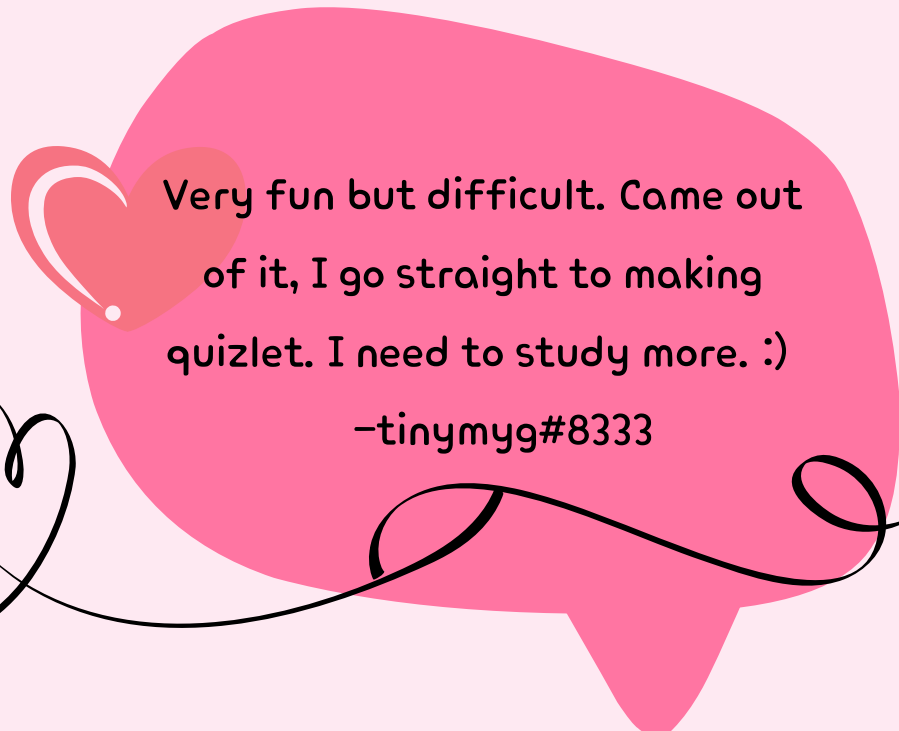

It's my first C&S activity and
I really enjoyed it! Would
encourage members to
participate if you can 😊
– lils 릴즈 #1993

I like how it's organized, it's simple
and straightforward. But the
content! It was harder than I
expected! It made me realize that I
shouldn't be content and should try
harder (especially on my vocab π
π). – Anon

I think it's a really helpful activity! I like the review from mentor to check how well you did and what were your mistakes. also you can realize what vocab you can/have to focus more on. I also love how simple it is (in terms of rules and instructions) – Anon

Very fun but difficult. Came out of it, I go straight to making quizlet. I need to study more. :)
