# 아미 KOREAN STUDY GROUP!

This discord server is focused on the Korean language. It welcomes people who have an interest in learning Korean. Your Korean level isn't important to join, as we have different groups and division that will be adapted to your Korean level after you take the assessment test. There are mentors who will help guide and assist you on the learning journey. There are courses such as H101 - which covers Hangeul - Textbook, Coursera, TTMik and many more. To make your learning journey even more interesting, we have both learning and fun clubs. There are also different activities that you can join like Run KSG, Tournament, quiz, Instagram and Twitter activity and many more. For each of these activities, a reward in the form of "hearts" is given to motivate people.

With 아미 KSG, you're learning and also having fun. Although the server is primarily for people who wish to learn Korean, native speakers are also welcome. If they so desire, they can help our members in their learning journey.
